Introduction

I am an aspiring Assistant level civil engineer with a strong foundation in estimation, structural drawing, and foundation design. I have hands-on experience in hydropower projects, having worked on estimation and drawing tasks at the Kulekhani III Hydropower Project & in field at Ace Engineering Consultancy & Devlopment Services. My career goals include gaining international academic exposure, securing paid internships, and contributing to infrastructure development. I value practical experience, critical thinking, and rigorous problem-solving. I am an individual who demands and does hard work and one who is dedicated at work.

Education & Internship Experience

I have completed my Civil Engineering Course as part of a Nepal Government scheme designed to equip students (from class 9 to 12) in 2024 A.D. with practical skills gained while in my OJT at Ace Engineering Consultancy & Devlopment Services. Here re some of my experiences and internships:

• Assisted in structural and foundation drawings.

• Conducted quantity estimation and cost analysis.

• Reviewed project blueprints and made modifications as needed.

• Collaborated with engineers to refine design plans.

• Gained exposure to real-world construction and engineering challenges.

Programming & Projects

Alongside civil engineering, I have developed skills in programming (HTML, CSS, JavaScript), Specially I am more specialized in HTML and CSS. My projects include:

• Aroma Free Movies: https://bmentoy.github.io/Aroma-Free-Movies/

• BDHSS Website: https://bmentoy.github.io/bdhss/

• Own portfolio website: **https://bmentoy.github.io/My-portfolio/**

Additional Training

I have done Computer Application Course at Step Ahead Computer Education, Hetauda, Makwanpur
Duration: 2079-02-15 B.S. to 2079-05-15 B.S.
Covered: Computer Fundamentals, MS Office, Photoshop, Internet & Cyber Security, and general computer use.

Languages

• Nepali (Native)

• Hindi (Fluent)

• English (Fluent, Duolingo English Test score: 130/160 taken in November 2024)
